HAMMER OIL 320

Non Moly Hammer Oil

Description:
HAMMER OIL 320 is mineral oil based, super heavy-duty rock drill and hammer lubricant, ISO VG 320

Applications:
Increased tool and bit life over conventional lubricants. Superior adhesion due to tacky additives with greater resistance to water displacement. Reduces failure of drill bits in deep drilling operations.

Benefits:
- Exceptional protection against wear.
- High lubricity characteristics.
- Superb low temperature qualities.
- Not classified as hazardous according to NOHSC criteria

Health, Safety & Environmental:
This product is classified as non–hazardous. No special precautions are required if employed and handled in accordance to normal practice for this type of product.

Good personal hygiene is recommended when handling this product. After any spills or personal contact, the skin area should be washed with soap and water. Clothing should be laundered.

Additional health, safety and environmental information is available in the Material Safety Data sheet.

Packaging:
HAMMER OIL 320 MOLY is packaged in 20ltr drums & 1000 ltr IBC’s.
